### 1,200 New Shirt Waists, 61 Worth Up to \$3.00 . . . . .

TELL clear 'em out at one fell sweep. They're brand-new waists. No one else in town-and we doubt if anyone in the land-has anything like 'em. They are the waists that will be worn during the coming Spring and Summer. We told you about the manufacturer leaving for another city and letting us have what goods he had made up at just what the fabrics and thread cost him. Well, these are the waists that are left. There were three lots at the start. Now we've generalized, and one price means all choice. These waists are a little in advance of every other year's perfection. They are made of the very highest grades of madras and zephyrs and ginghams. Beautiful fast colors. Lots of 'em are plain-many are fancy. Some are rendered attractive by tasteful braidings over the front. The styles are very different from what you have been wearing. The fronts and collars and cuffs show this more strongly than anything else. Now the

lowest wholesale price of any waist in the lot is \$1.00. Later in the year, when the stores are able to secure the garment, they'll sell matches of the finest ones at \$3 00. You take your unreserved pick tomorrow

Pennsylvania's Move Deplored by the B. & O.

TALK ABOUT RETALIATION

Hitherto Exclusive Territory Invaded in the Controversy.

Privileges Granted Tourists to Visit Washington Shocks Baltimore Business Circles.

On next Sunday the Pennsylvania Railroad Company will inaugurate a most pronounced competition with the Baltimore and Ohio Company for that particular passenger business butween New York, Philadelphia and Western cities which is attracted by the last-named road by the fact that the National Capital is on its direct line and all through tickets are good for stop-over privileges here.

On and after New Year Day the Pennsylvania will permit such of its westbound passengers as may so desire to come to Washington from Philadelphia over the Philadelphia Wilmington and Baltimore road, and the Baltimore and Potomas road, and go back again by way of the Baltimore and Potomac and the Northern Central to Harrisburg, where junction is made with the Pennsylvania road's main line.

The direct route from New York to the West is by way of Philadelphia over the main line through Harrisburg, Tyrone and Pittsburg. While the Pennsylvania people have not made an open reduction in fare, the concessions amount to practically the same thing, and it is predicted that so or later the Baltimore and Obio will re-sort to retalistory measures that will pro-duce a lively railroad squabble if the Pennsylvania insists on keeping its determination to invade a territory and extend privileges which have heretofore been the exclusive property of the Baltimore and

As yet, however, no steps on the part of the latter road looking to the evening of accounts have been taken, ro tar as the public knows. Mr. Corbin Studd, of the students of the various universities. Pennsylvania, said this morning that while it was true that his road would make a strong bid for some of the Washohio he did not anticipate serious trouble over the action. About a year ago a package of Postum

with the trial, the liquid being light-colored, weak and insipid. It lacked the without one or more applications for aid. Coal and wood were more in demand than anything else. The officers of this branch of the charities are making preparations to meet the large demands incident to the cold weather which they anticipate will be tomed to.

I concluded, however, I would have to cultivate a taste for it, and hence persisted in drinking the almost tasteless mixture for several weeks, until finally I became disgusted with it and quit it. The collection of food, clothing and money which was taken up just before the schools closed for the holidays has been turned over to the Associated Charities for distribution. Until today the demand on this office of the charities has been very light for this season of the year. During the past week aid was furnished to only fifty persons.

There has been a great deal of sickness among the poor of Georgetown. Grip has been the prevailing malady and the num-ber of cases has been very large. It is feared that should the present cold weather continue any length of time that there will be a decided increase in the amount of sickness, especially throat troubles and

A recitation was then given by Sara Cruit, Frank Dowling as Santa Claus was ushered in with loud ringing of bells, much to the delight of the children.
